

We are into 2012, and at the end of Jan already. Australia Day has come and gone, hope you had a great day. It's been since last July that I produced a Netrospect newsletter. There is no excuse for not doing so. So I won't give one. I look forward to getting back on track with the monthly newsletters, keeping you informed about our operation, and helping you to grow your online business.

From The Desk Of
Aaron Dwyer (owner)

Since July 2011 I haven't been idle, and as those members who follow the blog would have seen, I've been putting content onto the blog each month. Mostly videos about cPanel tutorials and recordings of presentations from the [Brisbane Internet Business Meetup](#) that I co-organise. I highly recommend that you check out [meetup.com](#) for any meetups in your area that you might be interested in. They are great for networking, meeting like-minded people and increasing your knowledge in a particular area of expertise.

This newsletter is
delivered digitally to
help the environment

Check out this if you have a bricks and mortar business location and use Facebook for your business (bricks and clicks).

I took this picture just last week, while passing along it caught my eye.

You can entice people to check-in and / or like your Facebook page while they are at your place of business.

So simple. Yet very few do it.

Just stick a sign up in your window and test it.

This one was an A4 print out in a plastic sleeve. I'd like to know if you implement this and your results. I'll be implementing this in one of my other businesses. My bricks and clicks [iPhone Repair](#) business.

And remember, as Netrospect Inner Circle Members you can always give me a call to discuss your website. No question is too small or too large. I'm here for you.

Aaron

This month it's time to cover another [cPanel video tutorial](#). The second most asked question that I get from people is when their hosting account runs over quota for hard drive space used.

It's hard to work out why without looking at your hosting control panel for where the space is being used.

[Click this link to watch the video.](#)

If you need any assistance with an account that is over-quota be sure to get in contact with us, and we'll advise you on the best way forward. You should become familiar with your cPanel control panel, it's your

portal to your web hosting account. Over the coming months I'll continue to introduce you to other features of the control panel.

Domain Name Renewal Letter / Invoice Scams

I think I should make this a standing insert in these newsletters.

If you receive any notices that look like invoices for your domain name, they are not real and are scams.

Why these companies are still allowed to continue with this misleading advertising is amazing. ACCC?

All domain renewals from all registrars will come via email, not normal postal mail.

Please make sure that the domain email is coming from the same registrar that you purchased the domain name from.

Testimonials

I'm always looking for more testimonials, so if we have helped you in any way that has impressed you and made you think "I'm glad I have Netrospect looking after my website and emails", I'd really appreciate it if you could send me an email about it.
